

NATIONAL DOCTOR'S DAY

ADVERTORIAL | An initiative by **RED**
Read. Engage. Deliver.

per cent of its GDP on its healthcare, which can be increased. The introduction of the PMJAY card by the government of India by our Prime Minister Narendra Modi is a welcoming step in helping the deprived section of the society.

Now, we have to talk more about digital health, digital records, digital appointments and digital operation like robotics.

We need to bring in concepts of health equity, care for the elderly and work safety with well being. We also have to talk about adolescent issues like drug addictions, malnutrition because of fast foods and tobacco addiction. The health issues of the country are changing and the health professionals also will have to contribute to address these rising new issues.

Ensuring healthy mothers and babies has been our priority since long and we have to take it upto the highest level. Rapid health insurance penetration and utilisation is also a change that will definitely secure the health of citizens. We have to aim for universal health care for all by 2030. It is fundamental to achieving the other sustainable development goals.

Artificial intelligence is another aspect which needs to be studied and optimally utilised to get good results in the health sector. We should forget to talk about mental health while discussing physical health. Mental disorders are on rise and in every field, we need to have a method for early diagnosis of depression and other psychiatric disorders. Prevention is better than cure, but let us enforce it in the society through yoga, meditation, good exercise, sleep and a healthy nutrition. We need creating awareness in the society about preventive health. Therefore, let's talk about wellness instead of illness.

Allergy and Sleep Apnea What's the connection?

RUDRAX CHEST CLINIC
Dr. DIPAK VIRADIA

Anti-histamines, decongestants, saline nasal sprays, allergy shots, using triptanogen-c pathways at night or sleeping in a humidifier are some options. However, the best course is to first consult with a sleep expert and seek proper medical support before trying out remedies. Sleep apnea is a serious condition and one must not employ the trial and error method to deal with it single-handedly.

Is there any way to avoid OSA?
Sleep apnea can affect anyone even children. But certain factors increase your risk - some you do not have control over such as being older, being male, being born with narrow airways or thicker necks. However, there are controllable factors like excess weight, smoking, and use of alcohol, sedatives and tranquilizers. If you can make life-style changes you have a good chance of not developing OSA.

Can treatments for allergies cure OSA?
Not necessarily but some medical treatments used for allergies may be useful for milder cases of OSA.
